

Cllr. MICHAEL

CROWE

making a difference in your area

For the past 5 years Cllr. Michael J Crowe has worked as an elected representative of your area. He is asking that you re-elect him in the upcoming Local Authority Elections to continue to make a difference.

RENMORE

NEW CLUBHOUSE FOR RENMORE SOCCER CLUB

As Chairman of the soccer club, I worked hard, along with the committee in the initial years to agree on the site location with local residents, the residents committee and all other interested parties. Since then we have gone on to build our clubhouse and are now near completion. This facility will also be open for other community organisations to use.

The Renmore Soccer Club is home to almost 300 members, made of up young men and women. The club's growth made it no longer acceptable to have it's members kit themselves out on the side of the road.

The process of application has been extensive. We worked long and hard in developing this project and have put many years of work in to it and this is a good day for the community. We worked closely

with local residents and the council to determine a site and building design that would be favourable to all involved.

The days of changing at the roadside are now closer to coming to an end for the members of Renmore Soccer Club with the near completion of the Renmore Soccer Clubhouse.

If you would like to join or contact the club log on to www.renmoreafc.com

Aras Naofa

I was also very supportive of the Aras Naofa Development, which was primarily driven by my former colleague, the late Cllr Michael Leahy.

I was delighted to support the contribution of €100,000, which the Council donated towards the project in September 2007.

DEALING WITH ISSUES

While representing Renmore in Galway City Council Cllr Michael Crowe worked continuously on various other issues in the area including parking issues at the entrance to Lurgan Park and will continue to work towards a solution to the rat running through Renmore

Cllr. Crowe has also worked with many residents in the Renmore area on their own personal issues ranging from difficulties with tenants in houses to lighting outside their homes.
